

Misel Brzulovic

Senior QA Devops Engineer

(+33)6.31.93.89.77 – brzulovic@gmail.com

Design - Create - Develop - Test – Deploy – Iterate

Senior QA DevOps Engineer with nearly 20 years of experience bridging the gap between software development, quality assurance, and infrastructure automation. Proven track record in building scalable CI/CD pipelines, architectural design of test frameworks, cloud migrations, and industrial-scale virtualization. Adept at implementing robust QA strategies and security hardening (IACS compliance) for enterprise and critical real-time environments.

Skills

CI/CD & DevOps

Jenkins (Advanced/Pipeline Script), Azure DevOps (Cloud/On-Premise), GitHub Actions, GitLab CI, Concourse, Dagger.io, Bamboo

Containerization & Virtualization

Docker, Docker Compose, Kubernetes (Helm), Hyper-V, Vagrant, Virsh, QEMU, VirtualBox

Programming & Scripting

Python (Advanced), Go, Bash/Shell, PowerShell, PHP, Java, Ruby, JavaScript, VBScript, SQL

Databases & Servers

MongoDB, PostgreSQL, MySQL/MariaDB, Oracle, SQL Server, Nginx, HAProxy, Apache, Lighttpd, Git Svn

Tools

Selenium WebDriver, Jira, Confluence, Bamboo, Redmine, TestLink

Infrastructure as Code

Terraform, Packer, Ansible, Consul, Universal Packages

Testing & Automation

Selenium WebDriver, TestComplete, Bats, Goblin, Venom, TestNG, Cucumber (BDD), TestLink, Redmine

AI & Observability (2025-2026)

N8N, Pi Coding Agent, Ollama, OpenWebUI, LiteLLM, Grafana, Uptrace, GCP Logging

Operating Systems

Linux (Arch, Ubuntu/Debian, RedHat/CentOS), Windows Server (2012/2022), macOS, Mainframes (z/OS, AS400, AIX, Solaris, HP-UX)

Softwares

Vim, Eclipse, NetBeans, Photoshop, Illustrator, Indesign, Flash, AfterFX, Premiere, 3DS Max, Blender, Maya

Languages

- French: Native / Fluent
- Serbo-Croatian: Mother tongue
- English: Professional / Technical fluency
- Romanian: Intermediate
- German: College level / Reading-Writing

Degrees

- 2015 ISTQB Foundation Level Certification
- 2000 Multimedia Designer training
- 1999 Deug Médiation Culturelle et Communication – Université Paris 8
- 1997 Baccalauréat ES

Hobbies

- Movies & Series (Thriller SF)
- Philosophy, DJ electro, Chess, Checkers, Backgammon, Rummy, Ping Pong

Design - Create - Develop - Test – Deploy – Iterate

Experiences

March 2023 – Sept 2025 **Senior QA DevOps Engineer - SLB (Schlumberger)**

Surface-Logging Development Team | Oil & Gas Sector

- **CI/CD Automation:** Migrated testing pipelines from legacy Excel sheets to Azure DevOps Test Plans using custom Python scripts. Designed multi-stage Cloud and On-Premise pipelines for automatic test execution.
- **Infrastructure:** Managed a centralized lab infrastructure hosting over 90 Hyper-V virtual machines (Windows, Kali Linux) with automated fallback and archiving scripts.
- **Modernization & Security:** Directed an Industrial Automation and Control Systems (IACS) cybersecurity compliance project, deploying automated security patches via PowerShell. Spearheaded migration from SVN to Git Azure DevOps utilizing Universal Packages for heavy binaries.
- **AI Integration:** Deployed localized LLM tools via Docker (Ollama, OpenWebUI) to optimize internal development workflows.

may 2022 – aug 2022 **Backend DEVOPS Engineer – Fifteen**

Urban Mobility and IoT Solutions

- **Backend Development:** Developed Go-based microservices utilizing MongoDB and gRPC protocols.
- **Testing & CI/CD:** Built Go unit tests via Goblin framework and deployed a Proof of Concept (POC) for integration testing using Venom. Orchestrated deployments via Concourse and Terraform into Kubernetes clusters on GCP.
- **Observability:** Implemented distributed tracing and monitoring workflows using Grafana, Uptrace, and GCP Logging.

nov 2021 – feb 2022 **QA DEVOPS Engineer - Haproxy Tech**

Load Balancing & Enterprise Proxy Software

- **Quality Audit:** Conducted extensive quality assessments across community and enterprise products (HAProxy, DataplaneAPI, Fusion, Ingress).
- **Automation:** Built automation test suites using Bats, Vagrant, Terraform, Docker, and Docker Compose. Resolving critical GitLab CI pipeline bottlenecks.

apr 2016 – oct 2021 **Senior Technical QA Engineer - Fircosoft/LexisNexis RS**

Financial Compliance & Anti-Money Laundering Solutions

- **Quality Assessment:** Owned quality engineering for core compliance C-based filtering tools across highly heterogeneous environments (Windows, *nix, Mainframes z/OS, AS400).
- **Framework Architecture:** Designed and developed a containerized test framework using Python and Docker.
- **CI/CD Transition:** Migrated and optimized legacy automated CI jobs from Bamboo to Jenkins scripted pipelines. Led development on the customer web portal using PHP and MariaDB.

Misel Brzulovic

Senior QA Devops Engineer

(+33)6.31.93.89.77 – brzulovic@gmail.com

Design - Create - Develop - Test - Deploy - Iterate

sept 2015 – dec 2015 **QA Manager - Outscale**

Sovereign IaaS Cloud Provider

- **Team Leadership:** Managed a team of 4 Python/QA Automation Engineers.
- **Strategy & Release:** Accountable for end-to-end quality metrics across cloud systems, internal tools, and frontend websites. Automated manual tests on Jenkins, establishing KPI reporting and pipeline administration.

jul 2012 – aug 2015 **Technical QA Project Manager - Meetic Group**

European Leader in Dating Platforms

- **Automation Architecture:** Designed and deployed a custom automation system using Selenium WebDriver, TestNG, Watir, and Cucumber (BDD). Built a customized Selenium-IDE plugin for Firefox.
- **DevOps & Systems:** Installed and administered Jenkins clusters, QA servers (Linux Ubuntu/Windows), Git repositories, Nginx, and custom Node.js WebApps. Developed a Java-based desktop app (`JgitAgent`) for environment orchestration.

apr 2007 – jun 2012 **Fullstack Developer - Meetic Group**

European Leader in Dating Platforms

- **Development:** Developed scalable frontend and backend web components utilizing PHP and Web Services (REST, SOAP).
- **Optimization:** Refactored complex legacy PHP code structures and optimized heavy SQL queries for Oracle/MySQL. Built a dedicated WS framework for iOS/Android platforms and integrated billing solutions via Highdeal.

may 2006 – apr 2007 **Web & Flash Developer Wamp - Mypixmania**

Online Photo Printing Service

- Developed PHP, JavaScript, and database backends
- Developed rich Flash components (Photobook layouts).
- Optimized URL-Rewriting and SQL performance.

1998 – 2006 **Developer - Various**

- 2004 – 2006 Logistics Manager – Fabio-Lucci/Tati
- 2002 – 2004 Associated Entrepreneur – Arkos (Serbia)
- 2002 Photo Designer – ColorFoto Barac (Serbia)
- 2001 Flash Developer – Créatures for Coca-Cola
- 2001 ASP Developer / WebMaster – Datavance
- 2000 WebMaster/WebDesigner – Creative Web
